

BASIC SOIL BIOTICS

A Non-Plant Food Product, Contains:

- | | |
|-----------------------------|-----|
| 1. Bacteria Culture Complex | 15% |
| 2. Co-Polymer Aspartic Acid | 33% |
| 3. Other Inert Ingredients | 52% |

Rates: Ornamental & Landscape Root Drench Applications

* Tank-mix @ 1 Lb **Bio-Plex Basic Soil Biotics** per 250 gallons water (1 Tablespoon per gallon water). Apply as a **root drench** to new ornamental plantings, seeding and sod at installation. Drench @ 2-5 gallon tank-mix per 1" caliper trunk diameter, (or) per 1,000 SF bed, seed, or sodded area. Containerized plants. *Drench* @ approximately 1-2 gallon tank-mix per each 1 gallon size container. For optimum plant establishment and stability add *Bio-Plex Transplant Concentrate*.

Rates: Turfgrasses (Warm & Cool Season)

* Tank-mix @ 1 Lb per 25-120 gallons water per acre. Apply evenly as a foliar or root drench to turfgrass areas. Can be tank-mixed in combination with other pesticides. For additional turfgrass benefits tank-mix with *Bio-Plex Transplant Concentrate*, and/or, *Bio-Plex 12-4-6*.

Net Contents: 1 LB US (.4536 kg Metric)

Manufactured for Bio-Plex Organics, div Turf Chemicals Plus, Inc.
2213 Huber Dr., Manheim, PA 17545 800-441-3573
