

Technical sheets, specimen labels and other product information is provided for use product guidance and understanding. Regulatory requirements and guidelines vary and not all products offered may be available for distribution in your area. Check with your State Dept. of Agriculture to validate product registration. It is the user's responsibility to read and follow the directions appearing on the product label and to comply with any and all local or state regulations reflecting the use and disposal of the product.

TRANSPLANT CONCENTRATE & PLANT ENHANCER

1-2-3 BAREROOT ROOT INOCULANT

5-IN-1 COMPLETE PLANTING GRANULES

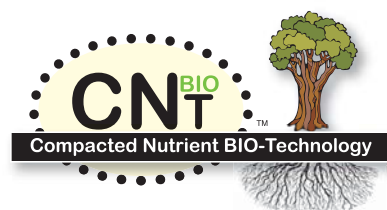

PRO-TECH™

4-in-1 Basic PLANTING GRANULES

ENDO-ECTOMYCORRHIZAL SOIL & ROOT INOCULANTS

BIO-PLEX 5-IRON

AQUATIC BIOTICS

Biological Pond, Lake & Fountain Treatment

WATER HOLDING POLYMER GEL

Natural PEST SOLUTIONS™

REPELLEX™

BIO-PLEX...PLANT SURVIVAL SOLUTIONS

...The Bridge Between Lifeless Soils – Poor Plant Performance – Marginal Project Results and More Successful, More Profitable, Hardier, Healthier – "Award Winning Plantings & Projects"!

Specialty Transplant Products	Typical Uses
Bio-Plex Technical Transplant Concentrate and Plant Enhancer - Turf & Ornamental Root Drench (A concentrated liquid biostimulant root drench. Contains: cold processed seaweed extract, humic acid extract, amino acids, enzymes, trace minerals & vitamins, trace amounts of macro nutrients, non-ionic wetting agent.)	<ul style="list-style-type: none"> ✓ New Plant Installations & Maintenance ✓ Tree & Shrub Moving, Transplanting & Root Feeding ✓ Summer-Digging & Transplantation in Harsh Conditions ✓ Tree Rehabilitation and Damage Due to Construction
Bio-Plex 5-in-1 Complete Planting Granules (Contains Endo-Ecto Mycorrhizal Fungi) (Contains: 1. Bio-Plex Bio-Stimulant 2. Endo-Ecto Mycorrhizal Fungi 3. Polymer Gel 4. Natural Organic Fertilizer 5. Volcanic Rock Crystals)	<ul style="list-style-type: none"> ✓ Tree, Shrub, Flower Installations ✓ Turf, Sod & Seeding & Related Planting Projects ✓ Complete Hydro-seeding Tank Mix ✓ Soil Supplement for Landscape or Nursery Production
Bio-Plex 4-in-1 Basic Planting Granules (Contains: 1. Bio-Plex Bio-Stimulant 2. Endo-Ecto Mycorrhizal Fungi 3. Volcanic Rock Crystals 4. Natural Organic Fertilizer)	<ul style="list-style-type: none"> ✓ Budget Sensitive Ornamental Planting & Installations ✓ Tree Moving, Transplanting and Maintenance ✓ Excellent for Wet, Moist, Clay Planting Conditions
Bio-Plex 1•2•3 Bareroot Inoculant – Polymer Gel Dip (Bareroot Dip. Contains: 1. Bio-Plex Transplant Bio-Stimulant 2. Endo-Ecto Mycorrhizal Fungi 3. Polymer Gel)	<ul style="list-style-type: none"> ✓ Decreasing Transplant Mortality in Bareroot Liners ✓ Increases Bareroot Establishment & Fibrous Root Mass
ROOT-MAXX Plus - Root Inoculant, Soil Conditioner & Plant Stimulant (Excellent-Deep Root Feed Program) (Formulated in a very stable, water soluble, dry formulation containing a Biostimulant Humic-Seaweed-Enzymatic Complex, Amino Acids, Trace Elements, 13 EndoEcto Mycorrhizal Fungi and sixteen (16) select, diverse soil Micro-organisms and Enzymes to include Nitrogen Fixing-Root Enhancing-Dethatching Bacterium and more!)	<ul style="list-style-type: none"> ✓ Restores Poor Soil Ecology – Improved Planting Conditions ✓ Thatch & Disease Suppression in GC Turf Grasses ✓ Elevates Limited Plant, Root & Soil Functions ✓ Speeds Plant Stabilization & Recovery at Installation ✓ Helps Reduce Transplant DECLINE – STRESS & MORTALITY
Safe & Effective Disease Management	Typical Uses
NEW - Pro-Tech T/O – Fungicide, Algicide & More (EPA Reg. A liquid concentrated blend of quaternary amines that effectively controls turf and ornamental fungal, bacterial and viral plant pathogens and algae. Labeled for curative and preventative use on turf and many ornamental horticultural crops (horticultural disinfectant). Safe for golf course and commercial lawn care use on cool and warm season turf grasses.)	<ul style="list-style-type: none"> ✓ GC Turf & Ornamental IPM Disease Management ✓ Greenhouse Disinfectant, Disease & Algae Control ✓ Mosquito Larvae Control – Standing Water ✓ Aquatic: Algae Control – Ornamental Fountains
3 Mycorrhizal Fungi Formulations	Typical Uses
<ul style="list-style-type: none"> • Granular Endo-Ecto Mycorrhizal Fungi • Endo-Ecto Mycorrhizal Planting Tablets • Water Soluble Endo-Ecto Mycorrhizal Inoculant (Bio-Plex Mycorrhizal Fungi formulations contain 13 species of viable Endo-Ecto Fungal Inoculant, 1 species of Trichoderma to protect roots, and up to 10 or more species of beneficial soil bacteria for the creation of optimum soil and plant growing conditions.)	<ul style="list-style-type: none"> ✓ Soil Amendment – Nursery & Greenhouse Growers ✓ Tree Rehabilitation as Root Inoculant, Drench, Vertimulch ✓ Soil Amendment Tree, Shrub, Flower Installations ✓ Turfgrass Disease Suppression ✓ Ammendment for Formulators, Mulch, Peat Manufacturers ✓ Compost Tea Supplement
2 Liquid Natural Based Fertilizers	Typical Uses
Bio-Plex 12-4-6 Turf, Tree, Flower & Shrub Bio-Plex 5-10-5 Pre-Bloom & Root Stimulator (Contains: Bio-Plex Bio-stimulant, soluble fish hydrolyze, natural humic substances, colloidal phosphates, feather meal, seaweed, and urea.)	<ul style="list-style-type: none"> ✓ Lawn Care Turfgrass Fertilizer Application ✓ Tree Feeding as Drench & Deep Root Feeding ✓ Nutrient Source – Hydro-seeding Tank Mix ✓ Nursery & Horticulture Complete Digestible Nutrient Source
5 Pelletized Organic Fertilizers	Typical Uses
16-1-8 + Team PRO (50% Natural Organic) ➤ TEAM PRO for Pre-emergence Crabgrass Control 5-3-1 + Bio-Plex (100% Organic – Gen. Purpose) ... ➤ General, Versatile, Safe & Effective Pelletized Nutrients 12-3-5 + Bio-Plex (85% Natural Organic) ➤ Turf & Ornamental Feeding, Seeding & Maintenance 20-4-5 + Bio-Plex (50% Natural Organic) ➤ Turfgrass Specialty for Lawn Care & Golf Course Fairways 4-6-4 + Bio-Plex (100% Natural Organic) ➤ Specialty Formulations for All Acid Loving Plants	
Compacted Nutrient BIO Technologies (CNBT)	Typical Uses
20-10-5, 21 & 10 Gram Fertilizer Planting Tablets ➤ Container Maintenance & Annual & Perennial Installations 12-8-8 Natural Organic "CNBT" – SPIKE & 15 G Tablet ... ➤ Large or Small Tree, Shrub Installation & Maintenance PALM TREE Plus Maintenance "CNBT" – 5 oz. Spike ... ➤ Palm Tree Installations & Maintenance – 1 Year Slow Release PALM TREE Deficiency "CNT" – 5 oz. Fertilizer Spike ... ➤ Correct Nutritional Symptoms & Deficiencies Palm Species	
Aquatic All Natural Pond Treatment	Typical Uses
Bio-Plex Aquatic Biotics Pond Treatment Digest (A proprietary blend of select, naturally occurring bacterial strains, enzyme digests, dispersing agents and carbon enhanced medium specifically formulated to effectively eliminate organic matter and neutralize excess inorganic nutrients and other concentrated contaminants in lakes, ponds and other water features. Fish, plant, pet & people SAFE. 100% Non-Pathogenic.)	<ul style="list-style-type: none"> ✓ Eliminate & Prevent Algae, Pond Scum, Sediment, Odors ✓ Improve Water Clarity, Quality and Oxygen Levels ✓ Non Toxic • SAFE – Fish, Plant, Frog, People & Pets ✓ All Natural Lake and Pond Bio-Remediation & Restoration
Polymer GEL • Effective 3-5 Years	Typical Uses
Bio-Plex Advanced Polymer GEL T/O	<ul style="list-style-type: none"> ✓ Turf, Sod, Ornamental & Bareroot Installations
Deer, Rabbit, Mole, Dog & Cat Repellents	Typical Uses
"ALL NATURAL" Liquid Repellent Concentrate & RTU ... ➤ Deer, Woodchuck, Mole, Flea & Tick, Plant and Mosquito REPELLEX Systemic Deer & Rabbit ML2 Tablets ➤ Root Absorbed, Protects 1 Year, Protects All Growth Stages	
Portable, Slow Drip Watering Devices	Typical Uses
TREE RINGS (Available in 25 & 10 Gallon Sizes) ➤ Slow Drip Water Delivery System to Install & Maintain Trees TreeGators™ Slow Drip Watering Bags ➤ Water Bag to Install & Maintain Ornamental Trees
