

BioPlex Master Gardener Organic Gardening Products, whether you need solutions for landscaping, flower gardens, vegetable gardens, water gardens, or ponds.

BioPlex Transplant Concentrate & Plant Enhancer
This product is a concentrated liquid biostimulant complex derived from cold processed seaweed extract, humic acid extract, enzymes, and a new generation nonionic wetting agent. When used at planting, it's highly effective in reducing transplant stress, increasing fibrous root mass, increasing photosynthetic capacity, and speeding up plant establishment. Excellent in stressful growing situations and under poor site and soil conditions. VERY safe, Nonphytotoxic.

BioPlex ALL OCEAN 3-3-2
This product embodies powerful ALL NATURAL ingredients found in the ocean. A 100% all-natural organic BioBlend fertilizer, it delivers plant and root responses from nutrients and biostimulation. Benefits include: elevated health and vigor, increased moisture retention, greater root fibrosity, and resistance to pests and diseases.

BioPlex Fertile FUSION 12-4-6
This BioBlend fertilizer is an odorless, natural, fast-acting high-phosphorous combination N-P-K fertilizer, formulated for early growth and root development, greater flowering, and superior fruit set. Great for turf, trees, flowers, and shrubs.

BioPlex Kick Starter 5-10-5
This BioBlend fertilizer is an odorless, natural, fast-acting high-phosphorous combination N-P-K fertilizer, formulated for early growth and root development, greater flowering, and superior fruit set. Great for turf, trees, flowers, and shrubs.

MASTER GARDENER PACKAGE SIZE:
12 x 32 Fl. Oz. Bottles/Case

Find all of these in our Product Guide!

BioPlex PRO 2 plus BIO-Buffer Ice Melt is rated "Superior" in the two primary product characteristics vital to efficient, safe and effective for ice and snow melting. Namely... Salt Particle Sizing & Purity.

PACKAGE SIZE:
40 x 50lb. Bags/Pallet

BioPlex GC CARBON: COMPOST Soil Conditioner - BioPlex GC Carbon-Compost PLUS 147% BioCHAR + 1.5% Humic Acid + 47% Compost + Mycorrhiza Fungi contains high levels of CARBON and Oxygen, arguably the most valuable of all soil conditioners.

PACKAGE SIZE:
50 x 1 cu-ft Bags/Pallet

Page #25

BioPlex 8 Application Lawn & Landcare 8-2-4 Fertilizer - Contains 25 PGR's, Homogeneous Bonded Uni-Particle, Contains EndoEctoMycorrhiza. Feeds Both the Plant & Soil, delivers 100% organic Turf - Ornamental & Soil Benefits.

PACKAGE SIZE: 40 x 50lb. Bags/Pallet

BioPlex 5-In-1 Complete™ Planting Granules is one composite product, formulated to affect five strategic, agronomic plant responses. It delivers one predictable result: SUCCESSFUL TRANSPLANT OUTCOMES with significantly decreased incidence of symptomatic plant decline or mortality!

PACKAGE SIZE:
6 x 4lb. Pouches/Case

Professional Products in Home & Garden Retail Size Packaging

BioPlex 4-6-4 (96% natural organic) - This product has been formulated to effectively meet the specific nutritional needs of a wide range of acid-loving plants. It's ideal for ornamentals ranging from azaleas, rhododendrons, hollies, ground covers, conifers and many others.

PACKAGE SIZE:
40 x 50lb. Bags/Pallet

BioPlex 5-3-1 (96% natural organic) - This is a very safe, cost effective, general purpose, slow-release turf and ornamental fertilizer that is suited for maintenance or installation. It is well adapted to year-round use in almost any landscape, turf, or nursery setting.

PACKAGE SIZE:
40 x 50lb. Bags/Pallet

BioPlex 20-4-5 (50% natural organic) - This product is almost exclusively dedicated to the nutritional requirements related to both cool and most warm season commercial turf grass cultivars. Formulated at a 50% slow release, it ensures a predictable 90-120 day release of nutrients. Typical coverage per 50 lb. bag ranges anywhere from 10,000-15,000 sq. ft. per bag.

PACKAGE SIZE:
40 x 50lb. Bags/Pallet

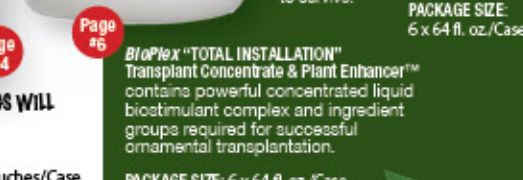

BioPlex 12-3-5 (85% natural organic) - The 12-3-5 formulation was created for in season when active vegetative growth characteristics are present. Twelve units of nitrogen are formulated to release slowly over 90-120 days per application.

PACKAGE SIZE:
40 x 50lb. Bags/Pallet

BioPlex Wilt-Stopper Foliage Film is formulated from chitosan. When chitosan itself, comes in contact with plants vegetation, it "signals" the plants into thinking they are being infested and the plant's natural immune response is stimulated and set in motion in order to survive.

PACKAGE SIZE:
6 x 64 fl. oz./Case

BioPlex "TOTAL INSTALLATION" Transplant Concentrate & Plant Enhancer™ contains powerful concentrated liquid biostimulant complex and ingredient groups required for successful ornamental transplantation.

PACKAGE SIZE:
6 x 64 fl. oz./Case

Bulk Contents: 20 x 50 g. T-BAGS WILL TREAT 43,500 SQ. FT. (1 ACRE)

PACKAGE SIZE:
20 x 50 gram T-Bags/Pouch, 6 Pouches/Case

BioPlex developed Compost Tea + BIO-Brew Bags for use by all plant enthusiasts ranging from the hobby, weekend gardener to the master gardener. Compost Tea Bags can be safely used both to steep a fresh, nutrient-rich liquid brew, or as dry packs placed into a transplanting hole with the plant roots - or ultimately - both in combination.

Compost Tea + BIO-Brew... Feeds the PLANT & SOIL!

PACKAGE SIZE:
12 x 21 gram T-Bags/Pouch, 20 Pouches/Case

Each COMMERCIAL APPLICATOR Compost Tea Bag contains highly concentrated, safe, digestible plant nutrients derived from aerobically cured, pathogen free compost, Endo-Ecto Mycorrhiza plus 25 beneficial rhizobacteria to help improve plant health, soils, root zone and fibrous root mass.

BioPlex 15 gram 12-8-8 BIO-Mycorrhizal Fertilizer Tablets contain both Endo and Ecto Mycorrhiza making them an effective choice for almost all plant types and species.

PACKAGE SIZE:
80-15 gram Tablets, 4lb. Pouch, 6 Pouches/Case

BioPlex 20-10-5 Root MAXX Planting Tablets (21 g.) come complete with 8 essential plant nutrients in proper ratios and remain a safe, proven and reliable choice for all new plantings.

PACKAGE SIZE:
85-21 gram Tablets, 4lb. Pouch, 6 Pouches/Case

BioPlex ROOT to SHOOT Bud to Bloom is formulated for all water soluble fertilizer applications. Especially, those seeking significant elemental nutrient inputs that affect the optimal growth and development of critical plant functions and structures.
