

BioPlex[®]

AMINO[™]

MAXX L-18

GUARANTEED ANALYSIS:

Total Nitrogen (N):	3%
2.89% Water Soluble Organic Nitrogen	
0.11% Nitrate Nitrogen	
Magnesium (Mg).....	0.5%
0.5% Water Soluble Magnesium (Mg)	
Manganese (Mn)	0.1%
0.1% Chelated Manganese (Mn)	

Derived from: Protein hydrolysate, Magnesium nitrate, Manganese EDTA.

NON PLANT FOOD INGREDIENT(S):

Free Amino Acids:	15.5%
Natural Amino Acids:	20%

Derived from: Protein hydrolysate, Malt extract.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

This product is tank mix compatible with most products. A compatibility test should be performed prior to use. Shake product prior to use. Maintain agitation during mixing and application. This product is intended as a supplement to a regular fertilization program and may not by itself provide all the nutrients normally required by crops or other intended plants.

NOTICE: BioPlex Organics warrants that the product conforms to its chemical description and is suitable for the purposes stated on the label when used in accordance with the directions under normal conditions of use. BioPlex Organics will not be held responsible for incidental or consequential damage resulting from the use of this product contrary to instructions or under abnormal conditions or under conditions and circumstances not reasonably foreseeable to BioPlex Organics.

WARNING: KEEP OUT OF THE REACH OF CHILDREN. DO NOT INGEST. Avoid contact with skin and eyes. Wear appropriate protective clothing when using this product. Direct exposure may cause irritation to skin, eyes and mucous membranes. In the event direct contact is made with skin, eyes, or other exposed body parts, IMMEDIATELY wash the contact area with copious amounts of clean water. Optimum storage temperatures, 40-80 degrees Fahrenheit. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

Net Contents: 1 U.S. Gallon (128 fl. Oz.), 3.785 Liter
Wt. per Gallon: 9.1 Lbs, pH: 5.3

BioPlex Amino MAXX L-18 is built on NEW plant fermentation technology. Results greatly affect the translocation of nutrients with greater metabolic efficiency - making Amino MAXX the ultimate foliar nutrient activator, facilitator and mobilizer.

PRODUCT USE DIRECTIONS

- **GC Greens-Tees-Fairways, Sod and Other Turf:** Tank-mix and apply foliar at 1-2 fl. oz. per 1,000 sq. ft. every 14-28 days during growing season. **For SEVERE STRESS RECOVERY, ROOTING AND/OR GROW-IN** post-renovation or seeding, tank-mix and apply at 2-3 fl. oz. per 1,000 sq. ft. every 14-21 days until fully established or visible stress symptoms abate. Can be combined in tank-mix combinations.
- **Over-seeding, Fairway Renovation Grow-in: For TURF RECOVERY, ROOTING AND/OR GROW-IN** post-renovation or seeding, tank-mix and apply at 2-3 fl. oz. per 1,000 sq. ft. (50-90 gallons per acre) every 14-21 days until fully established or visible stress symptoms abate. Tank-mix compatible with **most** liquid fertilizers and pesticides.
- **Soil-Container and HYDRO Grow, Medical Cannabis and Green Leafy Plants:** Tank-mix at 1 fl. oz. (or) 1 tablespoonful (or) 15 ml per gallon of water and apply daily as a liberal **foliar mist** applied thoroughly over the complete vegetative canopy. Apply daily or as needed for continued plant response. Utilized in a cannabis growth cycle, begin BioPlex Amino MAXX L-18 at the first sign of onset of flowering, bud or fruiting structure formations. Begin misting at that point in time and continue to 1 week prior to harvest. **Utilized as a root drench**, dilute 1-3 fl. oz. concentrate per each 1 gallon of water and repeat root drench every 14-21 days.
