CLEAN POND WATER^{Rx}

*The Smarter, Safer, Solution for Maintaining
Crystal Clean, Pristine Water!*

General Rate of Application:

- **Ponds, Pools, Lakes, Fountains** - Apply at 1 gram per EACH 1,000 gallons of water every 4-6 weeks until clear.
- **Areas surrounding water features** - Apply 3.4 oz (96.4 g) - to 6.8 oz (192.8 g) per surface area acre of land to banks surrounding areas to reduce nitrogen and phosphorous runoff into water feature.
- **Drip Irrigation** - Apply at 1 gram for EACH 1,000 gallons of water in tank or drip duration delivery cycle.

Storage & Handling: Store between 40°F and 85°F in a dark place protected from direct sunlight or high heat.

DO NOT allow moisture to come in contact with product that is not being used.

Between uses close zip lock seal on the pouch completely and then squeeze all excess air out through the one way valve to avoid clumping.

If clumping exists, break into usable chunks. The product is still usable and will mix readily in water.

CAUTION: DO NOT Inhale. Use only as directed. Keep out of reach and access of children and pets.
